## StormHarbour Names New Principal and Managing Director

Tuesday, 27 September 2011 12:51

StormHarbour announces today that Paulo Gray has joined the firm as a Principal and Managing Director with responsibility for driving client coverage and relationships in Portugal and the broader Iberian region.

Gray, who has over 23-years of combined investment banking and capital markets experience, was most recently Chief Country Officer and Head of Markets for Portugal at Citigroup in Lisbon, a role he held since 2003. Previously Gray held several senior roles at Citigroup in Portugal and Spain, including Head of Fixed Income for Spain and Country Treasurer for Portugal. Paulo was also part of Citigroup's European Fixed Income senior management team.

StormHarbour has been selectively adding senior investment banking and markets professionals to its global platform this year to further strengthen its client coverage and capitalise on regional and market opportunities where the firm sees substantial growth potential. This latest senior hire is testament to StormHarbour's belief that Portugal and the broader Iberian region offer compelling growth opportunities to the firm and its global client base.
